## BOURBON CITIZEN INTERESTED IN CANADA LAND DEAL.

Mr. Buckner Woodford, of Paris, Cashier of the Bourbon-Agricultural Bank & Trust Co., is an interested party, with W. B. Corbin, John L. Buckley, J. C. Stone, of Lexington, and Baxter Bros., of Wintrop, Iowa, in a deal for the purchase of a large body of farming land in Alberta, Canada.

The deal, which has been practically completed, involves the purchase of about 15,000 acres of land, located ten miles east of Olds, in Alberta, Province, Canada, and necessitates an outlay of \$350,000. This land is situated in the best and richest mixed farm district in the Province of Alberta, and has been under lease for the past five years to P. L. Burns, of Calgary. When the lease expires and the property is turned over to the purchasers, part of the land will be put into crops and the remainder will be used for livestock. If the racing game develops in Alberta, it is very probable that thoroughbred horses will form a part of the farm's activities. The deal was consummated by representatives of the principals at a conference held in Chicago some days ago.

## LOCAL PHYSICIANS PERFORM A RARE OPERATION.

For the first time in the history of the institution local physicians performed an operation at the Massie Memorial Hospital, in this city, for the removal of kidney. The patient was a colored woman named Kittie Warren. The operation is said to have been a success, and the patient has a fair prospect of recovery. Three large kidney stones were removed from the organ. The patient stood the ordeal remarkably well and rallied quickly from the effects of the operation.

## REPORT OF BRAMLETTE SALE.

Auctioneer George D. Speakes, of Paris, who conducted the public sale of livestock, crops, etc., belonging to George Bramlette, near Millersburg, makes the following report: Cows sold for \$80 to \$95 each; sheep, \$14 and \$15 a head; one sow and pigs, \$55; horses, \$35 to \$135 a head; one pair of mules, \$565; one mule, \$165; one jack, \$465; one jack colt, \$135; one jennet, \$185; one Percheron stallion, \$215; baled straw, \$8 to \$9.50 per ton; chickens, 75 cents to 85 cents each.

## MOTORCYCLE COLLIDES WITH AN AUTOMOBILE

En route to Paris yesterday afternoon on a motorcycle John Ginn and Charles Barlow, residing near Hutchison, collided with an automobile near Kenney, in which both received serious injuries. The machine with which they came in collision was coming at a good pace down the pike, toward Lexington. In endeavoring to keep to their side of the road their motorcycle swerved, as did the automobile.

When the crash came the two men were thrown a distance of several feet, striking on the road. Barlow's right leg was broken, while Ginn sustained serious bruises and cuts about the head and face. The automobile sped on, the driver, who was unknown, making no effort to help the injured men. Mr. Ben Parker, of Paris, passing by discovered their plight and placed them in his machine, bringing them to Paris. Barlow was taken to the Massie Memorial Hospital, while Ginn was taken to the office of Drs. Kenney & Stockinger, where his injuries were given attention. The motorcycle was completely demolished by the collision.

## HOSPITAL SUPERINTENDENT GRANTED ABSENT LEAVE

At a meeting of the Board of Trustees of the Massie Memorial Hospital, an indefinite leave of absence was granted. Miss Minnie Boehm, Superintendent of the institution since its inception, about eight years ago. Miss Boehm has been in ill health for some time, and has gone to her old home in Philadelphia, to recuperate. She has been succeeded as Superintendent by Miss Stevenson, of Berea, who comes highly recommended for the position.

## BIRTHS.

—Near Little Rock, this county, to the wife of Buchanan Leggett, a son.

—At the Norton Infirmary, in Louisville, to the wife of Dr. M. L. Gunn, of that city, a son, christened William Ussery Gunn. Mrs. Gunn was formerly Miss Dorcas Ussery, daughter of Dr. W. C. Ussery, of Paris.

## BOWLING GAMES

A team of bowlers from Paris visited Mt. Sterling last week and met defeat in a series of games by a picked team at the Trimble Bowling Alleys. The Paris team is putting in some practice stunts at the local alleys and is arranging for a series of games with teams from surrounding towns, to be played here.

## REAL ESTATE TRANSACTIONS

Wm. D. McIntyre, of Millersburg, sold a tract of land located in Nicholas county, to Lowe Bros., for \$310 an acre.

Two good sales of farms located in the Ruddled Mills vicinity were consummated yesterday, both tracts bringing high prices at private sale.

James W. Connell, of Paris, sold to W. S. Jennings, of Harrison county, his farm of 120 acres, located near Newtown, in Scott county, for \$250 an acre.

George Weathers purchased of David S. Wilson, a farm of seventy-one acres, located near Shawhan, for \$315 an acre. Mr. Wilson and family will move to Paris to reside.

The C. U. Bramlette real estate agency, of Carlisle, reports the sale of a one hundred acre farm in Bourbon county, the property of J. L. Craigh, to James B. Thomas, for \$275 an acre.

The twenty-acre farm of Grant Galloway, located on the Ruddled Mills pike, near Paris, was offered at public sale by the Paris Realty Company. The farm was bid to \$350 an acre and withdrawn.

N. H. Bayless, Sr., sold a tract of 345 acres to a local syndicate, for \$300 an acre. George Faulconer sold a farm containing fifty acres, to Mr. Harney, of Harrison county, for \$300 an acre.

James M. Russell sold at private sale Saturday to James Connell, of Paris, his farm of 335 acres, located on the Bethlehem pike, near Paris, for \$250 an acre. This is one of the best farms in the county, and has had careful attention in cultivating.

Through Harris & Speakes, real estate dealers of Paris, George D. Speakes, auctioneer, John L. Soper sold Saturday his farm of 367 acres, located two miles from Little Rock, in this city, at an average price of \$228 per acre for the three tracts. The farm was divided into three tracts. Tract No. 1, containing 130 acres, with improvements, was sold to Stewart Urmon, of Harrison county, for \$237 an acre. Tract No. 2, containing 130 acres, and improvements, was purchased by Watson Bros., for \$213 an acre. Tract No. 3, containing 107 acres, was sold to Henry S. Caywood and S. R. Burris, for \$237 an acre.

## FOOT BALL GAMES IN THE BLUE GRASS.

Center College defeated the University of Kentucky eleven at Danville, Saturday afternoon by a score of 56 to 0, the largest score by which the State University has been defeated by another Kentucky team in twenty-five years.

As a result of this game, it seems unquestioned that Center has the best team in the South. Georgia Tech is the only team which could be put up as a worthy opponent of the Danville team.

The Millersburg Military Institute football team, playing on its home grounds, defeated the strong Stanford outfit by a score of 65 to 0 Friday afternoon. Both of these teams had been beaten by the Lexington high school outfit earlier in the season and were not considered championship timber, but Friday's walk-over gives the M. M. I. boys a chance to talk back.

Chinn, who is a nephew of old Colonel Jack and Van Pelt, were the outstanding stars of the game. Both are Millersburg men and the former is said to be one of the best young players developed in Kentucky in late years.

The Paris High School team, accompanied by Coach Sheffield, went to Somerset, Friday, where they played the Somerset High School team. The game resulted in the defeat of Paris High School, the score being 39 to 0 in favor of Somerset High School.

## LET US FIX YOUR CAR—WE KEEP COMPETENT MECHANICS

When your car needs to be repaired bring it to us. Our mechanics are competent and do not work first on one car and then on another, charging you for time on both cars. Honesty is our policy.

## ARTILLERY DETACHMENT IN PARIS SHORT TIME.

A detachment of the Eighty-first U. S. Artillery, presumably headed for Camp Knox, near Louisville, was in Paris for a short time Friday morning. The detachment comprised about ten motor vans with field guns and machine guns with several small trucks, covered with "camouflage" covers. Each truck and van was manned by twelve artillerymen. No information could be obtained from the men as to their destination, save that they were "on their way to where they were going."

Don't hypnotize people into doing things—they come to, and then they undo.

## PARIS MAY HAVE NEW PASSENGER STATION

If the Louisville & Nashville Railroad officials can see the necessity of having a new passenger station at Tenth street, in this city, as presented them in a petition signed by a large number of Paris people, it is more than probable that the new station may become a reality.

The matter has been taken up for the city by Mayor January with the members of the present Railroad Commission, and in reply to his communication a letter was received from Sid T. Douthitt, Railroad Commissioner for this district, stating that the matter would be left as it is for the consideration of the incoming Commission.

The present structure was erected many years ago, and is said now to be entirely inadequate for the needs of the railroad and the express companies, and for the accommodation of the traveling public. Several years ago L. & N. architects prepared plans for the erection of a new station, but no action was taken, owing to the coming of the great war, which stopped proceedings.

Should a favorable decision be arrived at in the matter, the work of building could not begin before next spring, and until after the Government surrenders the road to its original owners, which it is promised, will take place on January 1, 1920.

## CIRCUIT COURT

All juries in the Circuit Court were excused Friday until this morning, when the Commonwealth cases will be called.

A compromise was effected in the case of Sam Schooler's administrator vs. George Williams Clay. The defendant paid in the sum of \$50. Schooler was struck and killed by an automobile driven by Clay, on the Winchester pike, near Paris, several weeks ago, while walking in the middle of the pike. Schooler's administrator sued for \$10,000 damages. The evidence showed that the accident was unavoidable, and that Mr. Clay was taking all the precautions possible and had always been considered a careful driver.

There was no session of the Court yesterday. The sessions will be resumed this morning, when the Court will call the ordinary docket for hearing of Commonwealth cases.

## NEW BARBER FIRM.

Walker Demett, who has been in the barbering business in Paris for the past twenty-one years, and Lucien Johnson, who has been in the business in this city for nine years, and many years before that in other places, have formed a partnership in conducting the business at Demett's old stand, No. 120 Tenth street, near the Louisville & Nashville passenger station.

We submit the following scale of prices for the benefit of prospective and present customers: Shave, 15 cents; hair cut, 25 cents; massage, 25 cents; shampoo, 25 cents; hair singe, 25 cents; hair tonic, 10 cents.

We guarantee to give you as good work as any shop in the city. We will be open early and desire your patronage.

## MEANS-ANDERSON COMPANY IN LYCEUM COURSE.

The Means-Anderson Entertainment Company, which will be heard on the Lyceum course here Thursday evening, November 26, has a remarkable record. Although this company has filled hundreds of dates in all parts of the country, it has never been adversely criticised by any newspaper or committee. It is a 100 per cent. company as a popular attraction.

The program given by the Means-Anderson Company is clean, artistic and vibrant with life. Miss Edna Means, reader, Eva Anderson, violinist, Miss Sellers, pianist, who make up the company are possessed of a personality and versatility which insure a program rich in contrast and full of startling surprises.

Miss Means was formerly dean of the College of Oratory of the Highland Park University. Her mastery of her art, her charm and joyous nature have captivated her audiences from east to west. Miss Anderson, violinist, is a remarkable entertainer and her splendid musicianship has enabled her to win her audiences throughout.

When this splendid company is heard here those who attend the entertainment will be both surprised and delighted at the excellence of the program.

## AMERICAN LEGION TAKES IN NEW MEMBERS.

At the banquet given by Bourbon Post American Legion, in the Y. M. C. A. gymnasium in this city, several new members were added to the roll. The speakers of the evening paid tribute to the memory of those who died during the world war and called on those present to "carry on" in the fight for the country to-day against unrest and radicalism.

## FOOT BALL.

Paris and Georgetown high schools played yesterday afternoon at Wright's field, on the Bethlehem pike, the result being Paris 16 and Georgetown 0. Arnsperger, Denton and Rice featured for Paris, the latter making a wonderful kick for the 30-yard line.

## LITTLE GIRL VICTIM OF AUTO ACCIDENT

Death under the wheels of an oncoming automobile was the sad fate that overtook Fannie May Hill, six-year-old daughter of Harry Hill, of near Hutchison, Friday afternoon, when she was struck and killed by an automobile driven by Samuel Walton, of Fayette county. The accident occurred about eight miles from Lexington.

The little girl attended school near the Lexington Country Club, and rode to and from the school on the Paris-Lexington interurban car. She stepped off the car at Stop 29, and in attempting to cross the pike, ran directly in front of the automobile. The accident, according to passengers on the interurban car, was unavoidable. Mr. Walton placed the little girl in his car, and rushed back to Lexington, but she died before medical aid could reach her.

This was the little girl's first year in school. Her father works in Paris, and she had been making her home with her grandparents, Mr. and Mrs. J. F. Hill, near Hutchison. Her mother died at the Massie Memorial Hospital, in this city, last December.

The funeral of the little victim took place Sunday afternoon, at 2:30 o'clock, with services conducted at the grave in the Paris Cemetery.

## B-4 FIRE Insure with W.O. HINTON & SON, Agts

## HANDSOME SHELBY HOME DESTROYED BY FIRE.

L. C. Willis' residence at Eleventh and Main streets, in Shelbyville, was practically destroyed by fire, which originated in the roof, presumably from a defective flue, at 9:45 Friday morning. All of the roof was burned off and the second story damaged beyond hope of repair, but the outer walls of the lower floor are intact, though the interior is badly damaged by water.

The large part of the furniture was saved, but much of the clothing of the members of the family and a considerable quantity of the house furnishings were lost. The loss is estimated at between \$8,000 and \$10,000, with insurance for \$7,000.

## SUSTAINS SPRAINED ANKLE

While engaged in a practice game of football at the Paris High School a few days ago, Robert B. Frank, son of Mr. and Mrs. Robt. L. Frank, sustained a severely sprained ankle when he stumbled and fell. He is able to be around with the aid of a cane.

## RATHBONE LODGE TO ENTERTAIN THURSDAY NIGHT

An event in local lodge circles will be the "get-together" meeting to be held at the court house Thursday night, by the members of Rathbone Lodge, No. 12, Knights of Pythias, of this city. The meeting will be followed by a banquet to be served by the Pythian Sisterhood at the lodge room, at the corner of Main and Third streets, in the Wilson building. Preparations have been made to entertain three hundred people.

Every member of the lodge is urged to be present and to bring his wife, or his sister, or sweetheart with him. The Grand Chancellor will be present at this meeting as will other prominent members of the order, who will deliver addresses. A good time is assured all who attend. The committee having the matter in charge have made all necessary arrangements for the entertainment and they extend a cordial invitation to the lodge members to come. Among other important matters to come up at this meeting will be the inauguration of the Pythian drive for the benefit of the Pythian Home at Lexington, an institution which has done a vast amount of good in providing a comfortable home for orphans of deceased members of the Pythian brotherhood.

## TO OUR SUBSCRIBERS.

THE NEWS subscription list is undergoing a process of revision and elimination, in which many names are being dropped, possibly of those who would like to have the paper continued, but whose subscription has expired.

In this work we find that many have moved from one place to another without taking the trouble to give us their new address, and the subscriber is giving someone else the benefit of it. The postoffice authorities and the rural mail carriers have been very kind in acquainting us with many changes of address, but it is up to those who desire to have their paper delivered to them to send us their correct address. This is true of many who are engaged in the cultivation of tobacco, and who have moved from one farm to another. In order that we may have our records complete we would appreciate having the correct address of those subscribers. If the paper is worth anything to you, it is worth the trouble of keeping us acquainted with your correct address.

## —WE KNOW NOW—

Any Tailor Can Make Clothes;  
Only Master Tailors Can Make  
Our Smart Clothes!

A carpenter can make a piece of furniture that may look well and last a few years. But the furniture that we prize most, the pieces that have been handed down through generations as heirlooms, is the work of cabinet makers—men who knew wood, how to season and work it according to the grain, and how to join it so the joints would hold.

So good clothes are the product of good tailors—our Smart Clothes the product of the best tailors. Every operation, from the shrinking of the woolen to the fastening of the buttons, is the work of an artist in his special field—each doing his bit for the ultimate accomplishment of the perfect whole.

Our Smart Clothes inherit a tradition that has been handed down through generations of the same families working side by side in the shops, and the record of the grandfather is a constant incentive to the son and grandson.

May we explain to you personally the advantage there is in this for you?

## EDITORIAL MUSINGS.

## You'll Miss Us.

"Goodby, Jim, take keer o' yer son."  
—Riley.

So you're going to leave the old town, are you?

Well, we're sorry to lose you, and we'll miss you when you are gone, but perhaps you know best—perhaps. We don't want to discourage you—not for the world—but, son, you'll find it's not all rosy.

Sometimes our young men find more and better opportunities in the

city than in towns like ours—and sometimes they don't.

The foreman will not call you Jim—you will have a number. And your real boss will not know you.

If you make good, you can climb, but will you have a chance to own the business?

The city landladies are not so anxious to have your room tidy as mother always was. And you know mother is a real cook, too. And when you go to the cafeteria, feeling hungry—and you'll get hungry—and order a dinner and eat it all and still feel hungry, you are going to think of the old dinner table in the old home town, where the dishes always seemed full and somebody always ready to pass them when your plate was empty.

And on Sundays, of course, you can go to the picture shows and to the parks and every turn you make will cost you six cents or more and you will think of the bunch of fellows back here that can spend a jolly afternoon without spending a week's salary.

Opportunities are there—and obstacles. We hope you can overcome them.

Have you thought how the old folks are going to miss you? How they will lie awake at night and wonder how it is going with you? And they will wonder about you—and pray for you.

They need you more than ever, now. They're not as strong as they used to be while you are stronger. You'll realize all this when you get down there and you'll realize, too, that there's no place like home.

If you make good we will be proud of you, and if you don't, we'll welcome you back to Paris, the best little old town in the world.

## How About Mother's Wages?

"The most poorly paid worker in the world," said a farmer the other day, "is the average farmer's wife. She puts in more hours and gets less for it than anybody else, man, woman or child." Come to think of it, there is something to this. For not only must the farm housekeeper put in long hours and get small pay, but she must know a lot of things—have a highly technical training, in fact.

Are mother's wages fair wages? Tell us what you think about it.

## The Poor Preacher

The preacher has a hard time. If his hair is gray, he is old. If he is a young man, he hasn't had experience. If he has ten children he has too many. If he has none, he should have, and isn't setting a

good example. If his wife sings in the choir, she is presuming. If she doesn't, she isn't interested in her husband's work. If he reads from notes, he is a bore. If he speaks extemporaneously, he isn't deep enough. If he calls on some very poor family, he is playing to the grand stand. If he calls at the home of the rich, he is an aristocrat.

Whatever he does, someone could have told him how to do it better. He has a fine time living off donations which never come in, and promises that never mature.

## Too Busy?

"When we hear somebody complain 'I haven't time to do this or that,' we think of the days long gone by, when we did not have the conveniences that we now have.

What would the busy-body do if he had to make his own candles for light, chop his wood for the fire, shoot his powder-and-ball rifle for food?

To travel, he would go by stream or mud road. He'd have no telephone. His doctor lived forty miles away, his school was half as far, sundial was his time-piece, the birds his weather forecasters. The stream was his bathtub, the brook his mirror. And the newspaper never would reach him.

Imagine him doing all these things—this fellow who has no time! Poor pashi-bazouk!

## THIS MEANS YOU.

When you get up with a bad taste in your mouth, a dull, tired feeling, no relish for food and are constipated, you may know that you need a dose of Chamberlain's Tablets. ## WHEN WOMEN DEFEATED THE PRESIDENT

Ordinarily the social battles of the Administration Women—those dictators of social life in Washington—are looked upon as beneath the consideration of dignified politics, but there is at least one case in which the women defeated the President of the United States in a pitched battle, and seriously injured his national influence. Andrew Jackson was the old Indian fighter who went down to defeat before the Cabinet ladies because he dared espouse the cause of the beautiful Peggy O'Neil, one-time waitress, who had married a member of Jackson's cabinet.

The memory of the tragic death of his own wife—a death brought on by the shameful attacks of the opposition press—no doubt influenced Old Hickory in his stand, but despite his ultimatum to the members of his cabinet that their political fortunes depended upon their wives' recognition of his protegee, the women were obdurate in their refusal to accept the daughter of a tavern-keeper as their social equal and were in the end victorious.

## NASTY COLDS ARE RELIEVED AT ONCE

"Pape's Cold Compound" Then Breaks Up a Cold in a Few Hours

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine. Insist upon Pape's! (adv)

## BOURBON TOBACCO WAREHOUSE COMPANY

Having Received Positive Assurance From the Heads of the Big Companies That Their Buyers will be on Hand, Announce Their Opening Sale for

**WEDNESDAY, DECEMBER 3**

TOBACCO RECEIVED ANY TIME AFTER NOVEMBER 15

COME TO THE OPENING AND SEE

OUR NEW HOUSE

IT'S A PEACH

## Consider These Facts:

1. The Paris market sold 12,000,000 pounds of tobacco the past season for the highest average obtained on any market in Kentucky.
2. The Bourbon Tobacco Warehouse Company sold in their two houses more than 8,000,000 pounds of tobacco for the highest average on Paris market.
3. We now have three of the best and finest lighted houses in Kentucky.
4. Our Auctioneer, Mr. Wikoff, will be back. He is in a class by himself, as those who have heard him know.
5. We have the best starter in Kentucky.
6. This company has held down the selling fees on Paris market for the past seven years in spite of the fact that every other thing beneath the sun has advanced in price and in spite of the fact that we were strongly urged to raise them.
7. This means a saving of 30 cents per hundred this year and meant a saving of \$36,000 to the tobacco growers who sold over the Paris market last season.

8. We do not try to pinhook our customers, but do our best to give all the same treatment and the best information at our command at all times. Last season we advised everybody to hold tobacco until January 1st. We now want to inform you that tobacco is very, very high in North Carolina, and judging our market by that, as we have been able to do in the past, good bright tobacco will be very high in Kentucky. The apparent large per cent. of low grade tobacco in this crop has a tendency to make us apprehensive of lower prices for common tobacco, though we are glad to note a very considerable advance in low grades upon hoghead market in the past ten days.

9. It will pay you to put your tobacco over the floor. The speculator who offers to buy expects to make money and is probably better posted than you.

10. Take pains in stripping and sorting and let us sell your crop for the High Dollar.

Made Me a Well Man

Mr. Louis Young, 1652 Clifford St., Rochester, N. Y., writes:

"I suffered for thirty years with chronic bowel trouble, stomach trouble and hemorrhages of the bowels. We bought a bottle of Peruna and I took it faithfully, and I began to feel better. My wife persuaded me to continue, and I took it for some time as directed. Now I am a well man."

Suffered thirty years with stomach trouble and hemorrhages of the bowels.

## SENATE PUTS LEAGUE RESERVATION RIGHT ACROSS

WASHINGTON, Nov. 17.—Squaring the issue with President Wilson, the Senate, adopted a reservation qualifying the obligations of the United States under Article X, of the League of Nations covenant.

A solid Republican lineup, reinforced by four Democratic votes, put the reservation across exactly as it had come from the Foreign Relations Committee and in virtually the language which the President declared on his western tour, would cut the heart out of the covenant and mean the rejection of the treaty. The vote by which the reservation won was 46 to 33.

The Article X reservation as adopted by the Senate follows:

"The United States assumes no obligation to preserve the territorial

integrity or political independence of any other country or to interfere with controversies between nations—whether members of the League or not—under the provisions of Article X, or to employ the military or naval forces of the United States under any article of the treaty for any purpose, unless in any particular case the Congress, which under the constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."

In only two particulars does this language differ from the proposed reservation which the President declared at Cheyenne, Wyo., he would be obliged to regard as a rejection. As read by Mr. Wilson the phrase "under the provisions of Article X" occurred at a different place, and the final word "provide" was changed to "declare."

The Administrations forces fought stubbornly through the day and into the evening to secure some modification of the committee measure, but to all of their proposals the united Republican organization remained adamant. Finally forced to yield, Democratic Leader Hitchcock put into the Senate hopper a set of five reservations on which he will ask for a vote later as a substitute program. The reservations cover withdrawal of the Monroe Doctrine, Article X, domestic questions and voting equality in the League.

## PROCEEDINGS OF THE PARIS CITY COUNCIL.

At the regular meeting of the Paris City Council, formal action was taken on the report of the Special Committee having in charge the investigation of the conditions and management of Massie Memorial Hospital, which has been in progress for several months. The report of the Special Committee follows:

To the Hon. Mayor and Board of Council of the City of Paris, Kentucky:

Your committee, to whom was referred the report of the Special Committee appointed to investigate the conditions of the Massie Memorial Hospital and the evidence submitted therewith, do hereby recommend that the evidence taken by said Special Committee, be referred to the Board of Commissioners of the Massie Memorial Hospital with the following requests, to-wit:

The evidence herewith submitted to your Board indicates that there is more or less dissatisfaction over the management of your institution. We respectfully request you to examine this record and take such steps, as, in your judgment, may be proper to relieve and remove such objectionable conditions, as may exist.

We further request that you make a special effort to establish and maintain an efficient training school for nurses employed by you, and especially to improve the treatment of special nurses.

Respectfully submitted,  
J. J. VEATCH,  
Chairman of the Board.

Following the receiving and filing of the report the Council passed an ordinance authorizing and empowering the Board of Commissioners of Massie Memorial Hospital to adopt reasonable rules and regulations for the conduct and management of said institution and to provide for the reasonable enforcement thereof.

On the passage of the ordinance the Council divided three and three Mayor January casting the deciding vote in favor of the ordinance. Councilman Catesby Spears was absent.

Mayor E. B. January presided, and Councilmen Arkle, Christman, Doyle, Merringer, Kiser and Veatch were present.

Mr. Peale Collier, Secretary of the Board of Education, presented a report from the Board, stating that the recent issue of \$46,000 passed before the outbreak of the war for the purpose of building two wings to the city school building on Seventh Street and an addition to the Colored school building, had been exhausted as result of the high cost of materials and labor, and that an additional amount aggregating \$33,000 would be needed to complete the structures.

The Board asked the Council to authorize another bond issue for that amount, and to order an election at the earliest possible moment. The matter was referred to the Finance Committee of the Council, who will report at a special meeting. During the discussion of the issue Mayor January informed the Council that the city was in serious need of a fire truck with bumper attached. The present apparatus is practically worthless, and he said the city would be in a dangerous condition if a big fire should develop.

City Engineer J. A. Stewart filed his report approving the construction of the southeast sewer recently constructed by D. A. Sant, at a cost of \$20,000, as having been completed and approved. The matter was referred to the improvement committee.

# J. D. Booth Farm

## 245 Acres of Bourbon County's Best Land

### Five Miles From Paris, on Jackstown Pike,

# AT AUCTION

## Friday, Nov. 21st

At 10 A. M., on the Premises.

This well known fine farm will be sold as a whole. It is well watered, well fenced, and is highly improved by this magnificent country home, having furnace, light plant, hot and cold water and bath; 3-machine garage, 3-room servant house, all necessary out-buildings, splendid orchard; three 5-room tenant houses; one warehouse, 60x60; one tobacco barn, 50x90; one tobacco barn, 40x72, with silo and cattle shed attached; one stock barn, 50x60. All improvements are in good condition.

This farm was all in old blue grass sod, till Uncle Sam called for greater food production. Mr. Booth answered his country's call by breaking 145 acres of this fine land for cultivation; the balance of 100 acres is still in old blue grass sod, timothy and clover. The fertility of this soil is unsurpassed and beggars description.

Mr. J. D. Booth, who lives on the property, will take pleasure in showing it to you.

Mr. Booth, who is Retiring from Business, will also Sell on the Same Day and Place His Live Stock and Implements, as Follows:

Two pairs of horse mules, one pair of 5-year-old mules, one pair of 3-year-old mules, two Jersey milk cows, one brood mare in foal to jack, a good worker and driver; 50 stock ewes, one 2-year-old jack, extra large; four jennets, two with colts at their sides; two wagons and frames, two mowers, one hay rake, two breaking plows, two cultivators, a lot of farming implements of all kinds.

Terms liberal and made known on day of sale.

#### BOURBON MEN SUE MADISON COUNTY STOCKMEN.

Elmer B. Myers and Joe B. Smith, of Paris, doing business under the firm name of Myers & Smith, filed suit in the Madison County Court against D. S. Reams, for \$140. They allege in their petition that the defendant sold them a mule warranted to be sound, and which proved to be "moon-eyed," and that when the mule was sold by the defendants it brought \$100 less than it would have brought had it been sound, as it was guaranteed to be. The plaintiffs claim \$40 additional for cost in keeping the mule. A. R. Burnam, Jr., of Richmond, represents the plaintiffs.

#### HUNTING SEASON OPENED SATURDAY WITH RUSH.

With quail, rabbits and other game more plentiful than at any time since the cold winter of 1917, when birds were killed by the extreme weather, the hunting season opened in Bourbon county Saturday with a large number of nimrods in the fields, and more on the way. The rush for guns, licenses, dogs and ammunition kept the hunters busy the day before. Those who have been in the fields after game report fairly good luck, with rabbits teeming in numbers, but the birds being scarce. County Clerk Paton issued a larger number of hunting license than for many years, but to the fact that many returned soldiers who were not here in past hunting seasons, have taken up the burden of helping to keep the city and county freed from the encroachment of game.

—One of the most brilliant society events of the season in Georgetown was the reception given by Mrs. John B. Graves and Mrs. Richard Herndon Waller, in honor of Mrs. Bailey Waller, of Hopkinsville. The hours were from two to five, during which about two hundred guests called. Among the guests were the following from Bourbon county: Mrs. John Stuart Roberts, Miss Margaret Ferguson, Mrs. W. E. Ellis, Miss Mary Ellis, Mrs. Catherine Davis Craig, Misses Lizzie Grimes, Mary Adams Talbott and Ann Talbott.

—The November meeting of Richard Hawes Chapter, Daughters of Confederacy, was held in the Confederate room in the court house Saturday afternoon, with a large attendance. After a short business session, Miss Reba Lockhart, of the Paris High School faculty, entertained the members with dialect stories. Eight new members were enrolled as follows: Mrs. Ben Dalzell and Miss Ada Bivin, of North Middletown; Misses Edna and Anna Clarke, of Millersburg; Mrs. Clifton

Dalzell, Mrs. Lee Stephenson, Mrs. Jesse Letton and Mrs. R. L. Wilson, of Paris.

—George Clayton and family have moved from near Paris to the farm of John T. Collins, near North Middletown.

—Mr. J. E. Taylor and daughter, Hilda, of East Paris, were guests of Miss Maude Taylor, in Falmouth, Sunday.

—Lawrence Price was in Louisville, Monday night, where he was invested with Master's Degree in Masonry.

—Byron Roberts, of near Paris, has returned from Cincinnati, where he had been to see his mother, who has been seriously ill in a hospital.

—Among recent visitors in Paris was Mr. Dan Crows, of Lexington, well-known newspaper man, who was a guest of friends on a short visit.

—A little son of Major and Mrs. Durand Whipple, of Paris, is rapidly improving in a Lexington hospital, where he has been a patient for several days.

—Mrs. Horace M. Bacon, Mrs. Allie Dickerson and Mrs. Magnus Rash have returned to their homes in North Middletown from a business trip to Cincinnati.

—The topic for discussion at the weekly meeting of the Progressive Culture Club, to be held in their Club rooms Thursday afternoon, will be "English Poetry of the Nineteenth Century." Mrs. Walker, leader.

—The Young Women's Bible Class of the North Middletown Christian church gave a "shower" Friday night for the benefit of the Kentucky Orphan Home at Louisville. Luncheon was served, and a substantial sum realized for the Home.

—Miss Lillian Bradley, of Louisville, was a visitor in Paris yesterday. Miss Bradley was for several years cashier in the office of the Cumberland Telephone Co., in this city, being transferred to the Louisville office. She was en route to Frankfort on a special business mission for the Cumberland Co.

—The North Middletown Women's Club will render the following program at their regular weekly meeting, to be held Friday: Music; Oratorios and Composers, Mrs. Caywood; Piano Selections, Mrs. Lee R. Henry; Group Sacred Songs, Mrs. J. W. Jones; Reading, Mrs. J. W. Young; Piano Accompaniment, Mrs. Tollie Young.

—The Paris Literary Club will hold their regular weekly meeting at the club rooms to-morrow afternoon at 2:30 o'clock. The program to be rendered on this occasion is as follows: The Gospel According to Mark—The First Memories Concerning Jesus' Public Career; (1) Introduction, (2) Galilean Ministry; (3) Ministry in Jerusalem; (4) Passion History. Leader, Miss Orr; Sacred Places, Mrs. Wilson.

—A message to Mrs. W. R. Hukill, yesterday from Miss Jessie Brown, who is at the bedside of her uncle, Mr. John McCann, in Toledo, Ohio, stated that Mr. McCann was critically ill, and likely not to survive long. Mr. McCann is a son of the late Mr. and Mrs. James McCann, pioneer residents of Paris, who occupied the old home at the corner of Main and Seventh streets, now taken up by the R. P. Walsh clothing house.

—Mrs. Wm Hukill, Sr., celebrated the eighty-fourth anniversary of her birth with a dinner Sunday at her home on Broadway. All the members of her family and a few intimate friends gathered around the table and partook of a splendid repast. Many expressions of congratulations and good wishes for the future were tendered this good woman, whose emotions overcome her so that she was unable to reply to the kind felicitations for a while. The chief ornament of the dining table was a beautifully designed and executed birthday cake, surmounted by eighty-four tapers, each signifying a milestone passed on the journey of life.

—Misses Sara Louise Bedford and Elizabeth Tarr, members of the Turner-Clayton bridal party, entertained at the home of Miss Bedford in compliment to Miss Turner and Mr. Clayton with a luncheon-bridge, which was a delightful event in all its details. Mr. Herbert Wilson entertained at the Phoenix Hotel, in Lexington, Friday, with a dinner party, in their honor. Yesterday afternoon, Miss Alberta Moffett entertained for Miss Turner and her guest, Miss Sharp, of Maysville. To-morrow Miss Turner will be hostess to the members of the bridal party at her home on Cypress street, following the rehearsal at the Christian church.

## GOVERNOR ORDERS BOARD OF CONTROL INVESTIGATION.

At the request of Henry Hines, Chairman of the Board of Control of the Charitable and Penal Institution of Kentucky, Governor James D. Black has ordered an investigation to be made of the records of transactions of the Board since 1916. The investigation will be made by State Inspector and Examiner Turner, with the assistance of a Cincinnati firm of bookkeepers.

Chairman Hines requested Turner to examine the records of the Board while the present members are in office, solely for the purpose of preventing expense in recalling them after their terms have expired.

Turner referred the matter to Governor Black and it was decided that it would be wise to employ outside help to make the examination. The work of examining the books was started Wednesday.

## A REVIEW OF THE HEMP INDUSTRY IN KENTUCKY

It is probable that no agricultural product raised in Kentucky has seen a wider fluctuation in market demand than hemp fiber. Varied conditions which are complained of to-day, such as shortage of labor and unsatisfactory market demand, have recurred from time to time throughout the whole period of hemp production in this State. Opinion seems to prevail at the present time that the hemp industry is a thing of the past and that the stable demand for the fiber has been usurped by other fibers imported from foreign countries. A clearer understanding of the present conditions and of the outlook for the future may be arrived at by a review of the hemp industry in Kentucky during the past 144 years.

Hemp was first introduced into this State by settlers arriving from Virginia and because the fiber is readily available for use in the manufacture of homespun yarns and cloth, it soon became one of the staple agricultural products of the frontier. In this early period of cultivation the art of home craftsmanship was very highly developed by the women of the plantations, and many kinds of cloth, fine laces and linen were eventually manufactured out of hemp. With the coming of the industrial revolution and the introduction of machinery into the weaving of cloth the home art was more or less abandoned and this was especially true after the invention of the cotton gin the manufacture of cotton cloth was very restricted, owing to the difficulty in separating the fiber from the seeds. Although hemp is widely adapted to many uses its refractoriness under treatment of machinery soon brought cotton to the front as a very heavy competitor, and the hemp industry quickly declined in favor of cotton-growing in other States, during a period of several years. The growth of the cotton industry in the South, however, at a later date, through its demand for cotton bagging and bale rope, soon gave the hemp industry in Kentucky a new importance, bringing hemp production to a point far in excess of what had previously been practiced.

About this time there was also a great demand for hemp fiber in the Eastern cordage plants where it was used for the manufacture of rope for the standing rigging of ships and in providing sailcloth similar to cotton duck. In 1864 cotton rose to a relatively high price, much higher per pound than cotton bagging and bale rope which were composed of hemp, and for that reason it became advantageous for cotton ginners to overload their bales with the hemp product. As a result of this the amount of cotton bagging to be used was restricted by manufacturers of cotton goods and demand arose for steel straps to take the place of the ordinary bale rope. Through this unfortunate circumstance hemp once more lost a wide market. On account of the quicker transit by steamships over sailing vessels India jute was introduced into the United States, and because of its cheapness in comparison with hemp, soon displaced hemp in cotton bagging, and furthermore, the increasing use of steamships greatly reduced the quantity of hemp used in the manufacture of rigging and sailcloth.

The manufacture of hemp products had risen to a point during this period sufficient to require an investment of \$500,000 capital in Lexington and an equal amount in other parts of the State, in rope walks and mills where rope, cotton bagging, sailcloth and hemp linen were manufactured. There was also a political phase to the hemp industry at this time; so much so that Henry Clay devoted a great deal of his time and attention to tariffs on foreign hemp, for the protection of Kentucky manufacturers, but contrary to the expectations of these manufacturers the price of hemp products was less after the imposition of the tariff than before its introduction. Russia, the greatest hemp-producing country in the world, continued to be a very heavy competitor with Kentucky and the impression of the tariff tended to destroy the shipbuilding industry of New England and to drive this industry to England and other European countries during the remainder of the period of decline of building sail ships.

Hence, again in the evolution of the hemp industry, new markets were necessary and it was after this juncture in the history of hemp raising and manufacture that the present uses of hemp came into prominence and have been maintained more or less steadily up to the present time. Although Russian hemp was an early and serious competitor of the Kentucky product it is to-day imported very lightly, but Italian hemp, water retted in the alkali streams flowing through the lava beds of that country and consequently lighter in color and finer in quality than the dew retted fiber of Kentucky, is now the ruling factor of competition in the hemp market.

The history of the hemp industry leads to the inevitable conclusion that its instability has not been caused by flaws in the cultural side of the question, but rather is inherent in those factors which control the marketing of the fiber. The process of retting might be improved by the experimentation but the introduction of power machinery and

## FARMERS' SURPLUS FUNDS.

The Treasury Department is urging the transfer to private investors of the Liberty Bonds still held by banks, which, as the Federal Reserve Board has pointed out, by reducing the inflated credit situation will be one effective factor for checking rising prices.

The farmers of the country took their full share in the war loans and for the first time became generally investors in securities. The problem arises, can they to their own advantage continue to invest money in securities, and if so, what form shall the investment take? A leading rural economist recently pointed out that the farmers could not do better than place their surplus funds in Liberty Bonds. From many quarters comes the warning against the danger in rising land prices which are in part due to the investment of the farmer's surplus in land which he does not intend to cultivate, but to rent and sell again.

The Government is interested in promoting the holding of Liberty Bonds, in preventing fraudulent practices by Liberty Bond manipulators, and in continuing the flow of money into Liberty Bonds and other Government securities.

## ANOTHER G. M. RHYME

Sing a song of Savings Stamps,  
A pocket full of fives  
Soon grow to an hundred  
And how the account thrives!

The king was in his counting house  
Counting out his money.  
That's the way the old rhyme ran;  
Doesn't it seem funny?

A counting house is the last place,  
(As everybody knows)  
Where one should keep his money.  
As there it never grows.

And every man nowadays is king  
Except the bums and tramps;  
For they're the only people now  
Who don't count Savings Stamps.

Each man goes to his safety box  
Once every little while,  
And puts in a new Savings Stamp  
To swell his growing pile.

## AND WE SAWED WOOD

Wes Whittle, a teamster down in Lowell, Ark., was so patriotic during the fall of 1918, before the Hun was finally vanquished, that he put a mortgage on his team and wagon and bought War Savings Stamps in his desire to do his duty by the Government. Some thought Wes was doing more than his financial strength warranted. But he just went down in the woods, cut up fuel and sold it in the Lowell market and the mortgage was soon lifted. Now Wes is buying more stamps, because he realizes their value and finds he can save.

## ONLY A COLD.

Are you ill? Is often answered—"Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

If the coal man gives you short weight for your money give him a long wait for his.

Improvements in the manner of breaking, together with the stabilization of demand, which may be brought about by introducing powerful industrial concerns at home, are the three problems which, if solved, would again make the raising of hemp in Kentucky a profitable agricultural undertaking. With an average production of over 1,000 pounds of hemp fiber per acre and the proper machinery for harvesting and breaking, hemp should be one of the most profitable crops suitable for culture in the Bluegrass section of the State and, furthermore, should require no more labor in its handling than is devoted to the culture of corn, wheat or other machine-handled products.

On account of the high prices and the introduction of improved machinery for handling hemp in other parts of the country there has been a constant trend during the last eight or ten years toward the expansion of hemp raising in other States. California, Wisconsin, Indiana and Ohio now produce collectively more hemp than is produced in Kentucky in a favorable year and the industry in Wisconsin, Ohio and Indiana has been stabilized by the erection of breaking plants for the production of long line fiber and tow by machine process, while most of Kentucky's fiber is still prepared by hand labor.

## A CHRISTIAN WAR IN CHINA

The Bible has been the cause of many social upheavals but none more peculiar in results than the Tai Ping revolt in China in the middle of the 19th century. A young Chinaman taking the Government examinations at Canton, was handed some Christian tracts, together with a few chapters of the Bible. For ten years he studied the tracts, and at a time he was desperately ill had visions that showed him to be destined to destroy demons and eventually to rule China. He set out to preach a garbled version of Christianity, gathered followers and was finally able to take a leading part in the revolt against the Manchus that was then going on. Hung Sin Teuen, the self-styled Christian general, led his army against Nankin, captured that city, and marched to Peking. But one of his generals, jealous of the power of his leader, claimed at this time to be the Holy Ghost of the Christian religion, and the consequent division of command caused the disorganization of the force and its final defeat by Gordon.

## WILL THE INFLUENZA RETURN?

Public Health Authorities Predict

Guard Against It By Building Up  
the Blood

Pepto-Mangan Creates Rich Red  
Blood and Increases Strength

Surgeon General Blue, of the United States Public Health Service, in a recent statement from Washington, warns the public that the much-dreaded influenza epidemic will probably return this fall and winter. All medical authorities agree that the weak, bloodless, rundown individual is more likely to contract this (as well as any other infectious disease) than is the strong, robust, red-blooded man or woman. In view of these facts, it is wise to use every effort to build up the blood and thus increase the bodily resistance to the invasion of the germs of the disease. Gude's Pepto-Mangan is an absolutely dependable red blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak and listless. Physicians recommend Gude's Pepto-Mangan. When you order, be sure the word "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.

#### SOME UNUSUAL ARITHMETIC

Before Christmas days arrive the people of the United States will receive in interest on Liberty Bonds \$458,000,000. They bought the bonds in a spirit of patriotism and now find it an investment, as well as a debt which they must eventually discharge. No usurer receives the interest or had any part in fixing it. Our own citizens own the bonds, and now with an agreeable feeling, cut the coupons. Many citizens bought bonds "until it hurt," often making

sacrifices and exercising unwonted economy. But how well it pays! If those who receive interest in the months remaining of this year so elect they will be paid in War Savings Stamps instead of cash, an operation by which they obtain compound interest. Now here is a pleasing and interesting problem in mathematics. The debtors are also creditors. The debts are also investments. Much of the money saved would not have been saved but for the admirable response to the Liberty Bond calls. In dealing with this problem, what is the complete answer? The complexity of it is evident, but all is commendable.

More remains to be said. The money was spent in an unavoidable war. We won the war. The country was called upon to prove the inflexible courage of its manhood—and womanhood. The result was in keeping with the best traditions of the republic. Militarism went down. Frightfulness was indomitably faced and smashed. A terrible world menace was ended. On the whole, future peace among the nations will be strengthened. The United States is no longer unprepared for coming emergencies, whatever they may be. How stands the balance sheet, the showing of profit and loss? It is a wise scholar who can do the sum.

**Positive Insult.**

#### PREPARING FOR 1920.

The design for the 1920 War Savings Stamp is now being completed in the Bureau of Engraving at Washington, and the new "Baby Bonds" will be on sale at all post-offices and many banks throughout Missouri, Arkansas and Kentucky with the dawn of the new year. The design for the 25 cent Thrift Stamp and the \$100 and \$1,000 Treasury Savings Certificates will be unchanged.

**AGED RESIDENT SAYS BENEFITS TOTALLED \$1,000**

Relief Trutona Gave Worth That Much To Her, Mrs. Benner Declares

LOUISVILLE, KY., Nov. 17—"For six dollars I've paid out for Trutona I feel that I've received \$1,000 worth of benefits," Mrs. C. Benner, 1123 Bardstown Road, said recently. Mrs. Benner, who is 52 years old, has long been a resident of Louisville, having been born here, and she is well-known in this city and vicinity.

"I'll admit that I didn't have much faith in Trutona at first, but it soon proved to be the medicine for my ailments," Mrs. Benner continued. "I used to suffer severe bilious attacks. No one knows the terrible feeling I'd experienced during these spells. Some times they would attack me while I was down town and I'd have a hard time getting home. My appetite was so poor there was hardly any kind of food that would tempt me. My liver has been out of shape for the past two years."

"After I had taken three bottles of Trutona I realized it was helping me and now, with the fourth bottle finished, the bilious attacks have ceased to occur. I have not had a spell for the past week. My kidneys are in better shape, too. I can truthfully recommend Trutona to those who are suffering as I did."

Trutona is especially beneficial for stomach, liver and bowel trouble, catarrhal complaints, nervousness, sleeplessness, loss of appetite and the like, and is equally as efficient as a reconstructive agency for overcoming after-effects of pneumonia, influenza, deep colds and the like.

Trutona, the perfect tonic, is now being introduced, and explained in Paris at the Drug Store of G. S. Vanden & Son.

#### NEW GOVERNOR WON'T WORRY ABOUT JOE-HUNTERS

If job hunters under the incoming State administration stop to count the cost, Governor-elect Edwin P. Morrow and his official associates will not be harassed to the extent their predecessors have been.

Twenty or thirty years ago when salaries for minor positions were fixed, "fat jobs" may have defined the spoils of a political victory; but salaries at the Capitol have not kept pace with the cost of living, and incumbents even of more recently created departmental positions, most of which carry with them some technical qualifications not what it was in the beginning. In recent years, too, the custom of assessing all employees for campaign expenses has grown upon, extending even to girl stenographers. The primary law doubled this expense and the cost of elections has kept pace with the mounting-cost of everything else. Most State jobs don't pay over \$1,500 or \$1,800.

#### KENNETH ALEXANDER TO RESIDE IN NEW YORK.

Friends in New York of the former Miss Mollie King, actress and screen star, who was married several months ago to Kenneth Dade Alexander, millionaire turfman, of Woodford county, were pleased to learn several days ago that she and her husband had decided to make their home in New York. This being Mrs. Alexander's wish, Mr. Alexander sold his 1,100-acre Woodburn estate to his sister, Mrs. Edward Simms, Lexington, and is preparing to establish a home in New York City. The Woodburn estate, near Versailles, has been in possession of the Alexander family for more than 100 years. Mr. Alexander and Miss King were married June 10 last in the apartments of the bride's mother, Hotel Ansonia, soon after he had returned from the war front.

#### DIZZINESS IS ANNOYING

As Many Paris People Know Too Well.

When the kidneys are weak or disordered, they fall behind in filtering the blood of poisons. As these poisons attack the nerves, the result is felt in spells of vertigo, just as drunkenness will make a man dizzy from the poisoning of alcohol. Dizziness, headache, backache and irregularity of the kidney secretions are all signs of weak or disordered kidneys and should not be neglected. Use Doan's Kidney Pills, the home endorsed kidney remedy. Read this Paris resident's statement.

Mrs. J. W. Markland, 326 Eighth street, says: "Some few years ago I suffered severely with kidney complaint and some times was in a serious condition. I had a constant dull ache across the small of my back and I was terribly dizzy at times. I have used Doan's Kidney Pills for this trouble and they have helped me more than anything else, always relieving me of the complaints."

Price, 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Markland had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system from the cold. (adv-nov)
